Nuisance and Public Health Nuisance Declared at Rolling Hills Manufactured Home Park

The Defiance County General Health District is responding to a raw sewage situation at Rolling Hills Manufactured Home Park. The Defiance County District Board of Health met in an emergency session on Monday September 23, 2019 at 3:15 pm. After being advised that several samples tested above the threshold for E.Coli, the Board passed a resolution declaring Rolling Hills Manufactured Home Park to be both a nuisance and a public health nuisance as an emergency caused by conditions or events endangering the public health. The board further ordered that the mobile home park owners shall remediate and abate the nuisance at their own cost and report back to the board with a report from a sewage contractor within 14 days. The vote was unanimous among present board members.

Diseases acquired from contact with E.Coli in water can cause stomach illness, skin, eye and other infections. The most commonly reported symptoms are stomach cramps, diarrhea, nausea, and low-grade fever. If you have symptoms, contact your healthcare provider.

The board determined there is no current order for residents of Rolling Hills Manufactured Home Park to evacuate the area based upon the owner’s agreement to comply and recent cooperation regarding resolving the problem. Residents are urged to use their best judgement regarding the matter and to avoid standing water.
